About Crowd NFT

Crowd NFT: Bridging Crowdfunding and NFTs for a New Era of Investment

Crowd NFT is a next-generation, blockchain-powered platform that redefines the crowdfunding landscape by integrating it with NFT trading. Our platform enables creators, innovators, and investors to connect and collaborate in a secure, transparent, and mutually beneficial ecosystem.

Through the use of NFTs as proof of participation and ownership, Crowd NFT transforms traditional crowdfunding into a reward-driven experience. Supporters don't just fund projects—they also share in their success via an automated income distribution system, powered by smart contracts. By merging ownership, engagement, and rewards, Crowd NFT opens the door to a more inclusive, transparent, and profitable way to back innovation.

By choosing Crowd NFT, you're not just investing in ideas—you're joining a movement where innovation, community, and financial opportunity come together.

Our mission: To democratize investments and create opportunities for global communities using NFTs and Web3 crowdfunding.

Our Team Experience

At Crowd NFT, our strength lies in our people. Our team brings together blockchain developers, financial experts, and global marketers with extensive experience:

- 1 Blockchain & Smart Contracts** – 7+ years of experience in Ethereum, Binance Smart Chain
- 2 FinTech & Investments** – 10+ years in structured finance, investments, and asset tokenization.
- 3 NFT Ecosystem & Gaming** – Built and scaled NFT collections, GameFi projects, and Web3 communities.
- 4 Marketing & Growth** – Grew blockchain products to 100k+ active users worldwide.

Together, we combine innovation, trust, and execution power to make Crowd NFT the future of NFT-driven crowdfunding.

Why Choose Crowd NFT?

Crowd NFT: The Future of Crowdfunding, Powered by NFTs

At Crowd NFT, we're transforming the way crowdfunding and investing work—by integrating them with the revolutionary potential of non-fungible tokens (NFTs).

Unlike traditional platforms, every contribution on Crowd NFT is tied to a unique NFT that acts as proof of ownership and unlocks access to exclusive rewards. This means supporters aren't just backing a project—they're actively sharing in its success.

Our innovative model introduces a transparent revenue-sharing system driven by smart contracts, ensuring fair, automated, and trustless distribution of returns. Every transaction is securely recorded on-chain, offering unmatched transparency and security.

At the heart of Crowd NFT is a community-first approach—a system where creators and investors both win, powered by scalable, multi-chain technology that supports growth across blockchain ecosystems.

By choosing Crowd NFT, you're not just investing in ideas—you're joining a movement where innovation, community, and financial opportunity come together.

Innovative and Resilient

AI-Powered Cybersecurity for Businesses – Artificial Intelligence is transforming the way organizations protect themselves against digital threats. With automated attack detection and response, advanced vulnerability scanning, and improved network efficiency, AI enhances security systems to stay one step ahead of cybercriminals.

A Community with a Clear Mission

Our mission is to deliver competitive, reliable, and premium-quality services to our clients. With a focus on visibility, fast growth, and long-term success, we continue to strengthen our legacy of excellence every single day. The global digital economy offers limitless opportunities—and with us, you're positioned to capture them and maximize your profits.

Crowd NFT Features

1

NFT-Backed Crowdfunding

Every contribution is represented by an NFT, giving investors proof of participation and access to rewards.

4

Multi-Chain Support

Ethereum, BSC, Polygon, and L2 chains ensure faster, cost-efficient, and secure transactions.

5

Creator Launchpad

Tools and services for creators to launch campaigns, mint NFTs, and reach a global audience.

6

Secure Ecosystem

All transactions and revenue distributions are powered by transparent system.

2

Revenue Sharing Model

Contributors share in the income generated by projects they support..

3

NFT Marketplace

Backers can trade their crowdfunding NFTs for liquidity, creating a secondary investment market.
